Safeguard Equipment and Staff

STEEL SAFETY BOLLARDS

Protect Your Equipment | Improve Safety:

Safety Bollards help to protect warehouse equipment from scratches and dents. They create a vertical steel barrier from trucks, forklifts, and other moving heavy equipment.

Strong protection is provided by a round steel tube anchored to the floor.

Benefits:

- Easy, Fast Surface Mount Installation
- Strong, Quality Construction
- Powder Coated Safety Yellow

Features:

- Round 4" Thick Schedule 40 Steel Pipe
- Solid 8" x 8" x 3/8" Thick Base Plate
- Standard Height of 36"

Options:

- Other Sizes and Configurations Available
(Minimum Order Purchase Required)

Bollard Specifications:

Product	A Diameter	B Height	C Width	D Base Length	E Base
SB-436	4"	36"	8"	8"	3/8"
