Safeguard Overhead Door Tracks

# DOOR TRACK PROTECTORS

## Protect Your Door Tracks:

Protect overhead door track damage from forklifts and pallet jacks with CIP's Track Protectors. Industrial steel channel welded to a base plate provides a barrier and shields the door track from damage and costly repairs.

They're powder coated in safety yellow and are built to protect the most vulnerable part of an overhead door – the tracks.

## Benefits:

- Easy, Fast Surface Mount Installation
- Strong, Quality Construction
- Economical

## Features:

- Industrial Steel Channels
- Powder Coated Safety Yellow
- 24" and 36" Heights Available.

## Options:

- Other Sizes and Configurations Available  
(Minimum Order Purchase Required)

## Door Track Protector Specifications:

Product	A Diameter	B Height	C Width
