Protect Racking & Shelving

UPRIGHT RACK PROTECTORS

Protect the most vulnerable part of racking & shelving:

Protect rack and shelving damage from forklifts and pallet jacks with CIP's in-aisle Upright Rack Protectors. Industrial steel channels protect the most common size rack uprights (3" and 4") and are available in three optional heights (18", 24", and 36").

They're powder coated in safety yellow and are built to protect the most vulnerable part of a rack frame – the base plate and lower leg.

Benefits:

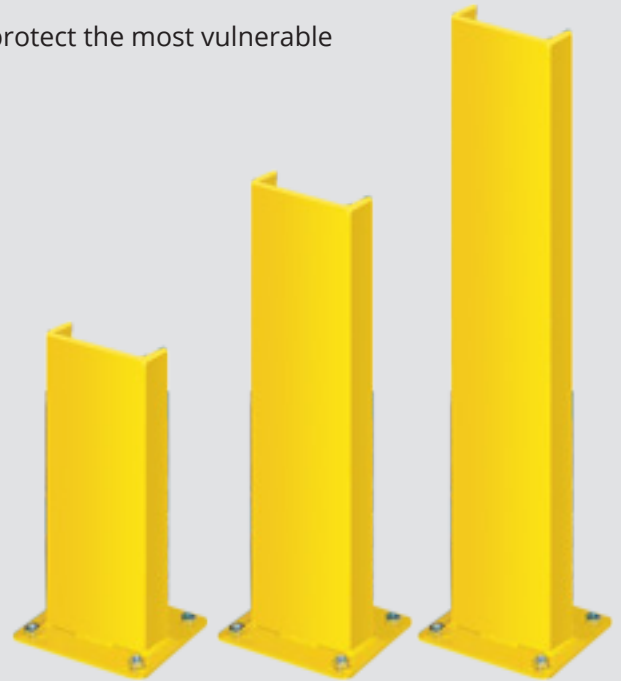

- Easy, Fast Surface Mount Installation
- Strong, Quality Construction
- Economical

Features:

- Industrial Steel Channels
- Fits 3" and 4" Rack Uprights
- 18", 24" and 36" Heights Available.

Options:

- Other Sizes and Configurations Available
(Minimum Order Purchase Required)

Upright Rack Protection Specifications:
