Protect Capital Equipment and Staff

STEEL MACHINE SAFETY GUARDS

Protect Your Equipment | Improve Safety:

Protect your Vertical (VRC) Lift, expensive machinery and employees from forklift contact with CIP's industrial machine safety guards.

Assembled as a complete "U" shaped unit, CIP's Safety Guards can be bolted via surface mount or secure concrete for maximum protection.

Benefits:

- Easy, Fast Surface Mount Installation
- Strong, Quality Construction
- Comes Fully Assembled
- Powder Coated Safety Yellow

Features:

- Round 4" Thick Schedule 40 Steel Pipe
- Solid 9" x 9" x 3/8" Thick Base Plate
- Standard 42"W x 48"H
- Base Plates are Drilled with 5/8" Mounting Holes

Options:

- Other Sizes and Configurations Available
(Minimum Order Purchase Required)
